Bureau of Land Management	38,630,000	43,959,000	31,416,000
Department of the Interior Valuation Services	12,618,000	12,643,000	11,000,000

The Committees urge each of the agencies to comply with any Congressional requests for full and accurate accounting of cost, acreage, and location data of lands acquired with LWCF funds. In future budget justifications, the agencies are directed to include a detailed explanation on the use of prior year funds for recreational access projects and inholdings.

The Committees direct the agencies to continue to consider and rank Federal land acquisition projects consistent with the process used in prior years, and upon request, to provide a prioritized project list for any funding levels above the budget request being considered by the House or Senate Committees.

The Committees believe increasing access to our public lands for hunting, fishing, and other recreational activities is important and again include funding for these projects. The Committees expect the same factors used to determine suitability of listed projects will apply to recreational access projects and the agencies should work through their respective regions, State offices, and/or management units to consider projects that may not rise to the level of listed projects. The agencies are directed to include an explanation of the process and criteria used for allocating funds for recreational access in future budget
